

INTRODUCTION

We have just read in manuscript, "History of Alien Immersion and Valid Baptism," by Elder J. H. Grime, of Ridgely, Tenn.

As we finished the last page a hearty amen came fully endorsing the book. It is just what it purports to be, "A History of Alien Immersion." It is largely a compilation of historical facts on the subject, a clear demonstration of the fact that Alien Immersion is a modern fad of liberalists, who are more anxious to be popular than they are to be right. The book is well arranged, is clear, logical and most timely.

It should be read by all of our Baptist people, and the just acknowledgement made of the timely service rendered to the cause of truth.

Would it not be timely for every real Baptist Association to go on record by publishing their disapproval of this illogical, inconsistent, modern practice of the few lax, would-be leaders and thus put a stop to the inroads of error which lead unmistakably to disintegration and confusion? Let Baptists be Baptists, contending earnestly for the faith.
